

# I'm Linus Petersson.

I'm a Malmö based Software Developer working professionally for 5 years. I am a solution-oriented javascript programmer with a curious mind, loving to think one step further.

## About Me

I am a 34 year old father of 2 born and raised in the deep woods of Småland. I have always been interested in all kinds of technology, from big machines to the smallest software, and quickly fell in love with the internet. I have a Bachelor degree in Computer Sciences as has since then worked as a software developer at Flygprestanda AB.

## EDUCATION

---

### Stockholm University, Stockholm

*Bachelor degree in Computer and System Sciences* • 2010 - 2013

Broad education in Computer Sciences. My main focus was programming (Java) and software development. Bachelor thesis about automatic rating of online newspaper article comments using Data Mining.

### Chalmers University of Technology, Gothenburg

*Civilingenjörsprogrammet i maskinteknik* • 2004 - 2006

### Sunnerbogymnasiet, Ljungby

*Teknikprogrammet* • 2000 - 2003

---

## WORK

---

### Flygprestanda AB, Malmö

*Software Developer* • September 2013 - Present

Being part of a small team developing a Hybrid web app for the airline industry, used by pilots for calculating aircraft performance prior to takeoff and landing. The app runs offline on iOS, Windows(UWP) and online in the browser and communicates with a server-side management tool using REST.

### Strålfors Svenska AB, Stockholm

*Warehouse Worker* • 2007 - 2010

Driving forklifts, Packing boxes, Making really advanced Excel spreadsheets.

---

## SKILLS

---

This is what I have done, I would love to add more stuff to this list.

#### JAVASCRIPT

#### HTML5

#### REACTJS

#### CSS

#### GIT

#### SCRUM

#### Bragging About My Skills

## OTHER STUFF THAT I`VE DONE
